***Allowable Subject Matter***

Claims 14; 18, 16, 19-27, and 30-32 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 14 is allowed, because the prior art does not disclose or suggest a method of improving sizing in a paper or paperboard product including the steps of combining a papermaking sludge with an enzyme composition, combining the enzyme-treated sludge with a papermaking pulp, and then forming a product identical to one made with untreated sludge such that the product made with the enzyme-treated sludge has comparatively improved sizing, wherein the enzyme composition comprises at least one polyamide oligomer and at least one cellulytic enzyme.

Claims 18, 16, 19-27, and 30-32 are allowed, because the prior art does not disclose or suggest a method of improving sizing in a paper or paperboard product including the steps of combining a papermaking sludge with an enzyme composition, combining the enzyme-treated sludge with a papermaking pulp, and then forming a product identical to one made with untreated sludge such that the product made with the enzyme-treated sludge has comparatively improved sizing, wherein the enzyme composition comprises at least one of a protease, an esterase, or a lipase.

Allowable subject matter was indicated previously.
